Recently there was some confusion surrounding the Exhibit-E Roadway System.

Some have publicly suggested that it does not even exist in the controlling documents for the WWROA. Others have suggested that even if it does exist, it is irrelevant.

To clarify, a short document 'REMO Addendum II Explained' was created.

The Road Easement Maintenance Obligation (REMO) contract, Addendum II dated 11-12-1997 updated & redefined the original WWROA roadway system. The Exhibit-E roadway system map replaced the original 'first draft map' known as Exhibit-C. At that point, the Exhibit-C map became obsolete, and the Exhibit-E roadway system map became the final controlling document for the WWROA. Note: Phase VI becomes Phases VI → IX
